

Public Notice

The CITY OF FLORENCE water system PWS ID 2460005 has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, Texas, Section 290, Subchapter F. Public water systems are required to monitor for Lead and Copper and report the results of that monitoring to the TCEQ. During January-December 2014, we did not complete all monitoring and/or reporting for lead and copper, and therefore TCEQ cannot be sure of the safety of your drinking water during that time. We are taking the following actions to address this issue:

Distribute and collect the 10 required lead and copper bottles from customers at designated locations set forth by TCEQ in a reasonable time.

Please share this information with all people who drink this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

If you have questions regarding this matter, you may contact Doc Blackman at 254-793-2490
